

## THE GARDEN

**O** LIGHT SHINE DOWN ON ME  
You know what I need  
Shine down on me  
Shine down on the garden

Sweet earth alive under me  
You know what I need  
Cradle me like a seed  
As I lay in the garden

O wise and beautiful tree  
Standing high over me  
Oh the things you have seen  
Tell me your story in the garden  
Tell it to me in the garden

And tell me  
How long have we slept  
How long have we wept  
There's work to be done

Sky above  
so vast and so deep  
You know what I need  
Rain down on me  
Rain down on the garden

O light surrounding me  
Sweet mystery  
In everything I see  
Come and find me in the garden

And tell me  
How long have we slept  
How long have we wept  
There is work to be done  
In the garden

## COLD OUTSIDE

Baby it's cold outside  
Come in and stay a while  
You know you want to  
You know you want to

Baby it's cold outside  
The streets are dark  
and the winds are wild  
And I want you  
I want you

Ooh come inside  
Ooh come inside

Baby what do you say  
I can't think of a better way  
To spend the night  
Let's do it right

Your smile is bright  
as the moon tonight  
I can see you in my mind's eye  
And I want you  
I want you

Ooh come inside  
Ooh stay a while

Baby won't you come to me  
It's mad out there like a stormy sea  
I want to keep you safe  
I want to keep you safe

I know you're scared and so am I  
You tell me yours then I'll tell you mine  
Cause I think it's time  
I think it's time

I think I know how to love you  
I think I know how to love you  
I think you know that I want to  
I think you know that I want to

So come inside  
And stay a while  
Come inside  
Stay a while

Ruth Moody © 2010

I've been down a dusty road  
Carrying a heavy load  
Made good use of  
these here travellin' shoes  
Couldn't tell you where I've been  
But you'll know by the shape I'm in

I'm a junkie just like you  
I need my fix when I get blue  
Just a little something  
to get me through  
Sometimes it's not enough  
I get gone before the gone get tough

Moon, be my lover be my friend  
Bathe me in your light  
until I'm whole again  
Moon, be my lover be my friend,  
until I'm whole again

## TRAVELLIN' SHOES

There's a big sky where I'm from  
And fields touched golden by the sun  
Someday I'll bury my regret  
Spread my wings like a butterfly  
Cut these strings and say goodbye

Wind, be a witness to my flight  
Carry me until the morning  
breaks the night  
Wind, be a witness to my flight,  
until I'm out of sight

Moon, be my lover be my friend  
Bathe me in your light  
until I'm whole again  
Moon, be my lover be my friend,  
until I'm whole again

## WE CAN ONLY LISTEN

Nothing's working for me today  
Maybe I'll go for a walk in the rain  
I'm soaking wet but my heart's on fire  
I can't show it but I'm all desire

Fox in throat, hand in sleeve  
We try and ask for what we need

Getting lost in all the one way streets  
Keep on walking until we meet  
I never know just what to say  
I only remember when you walk away

Word in hand and rubber lips  
We let it fall from our fingertips

We cannot choose the ones we love  
When our hearts they speak so loudly  
We can only listen  
We can only listen

Would it be easier beneath the sun  
Where apples fall and rivers run  
And I'd be lying there next to you  
In the silence it all comes through

And then we wouldn't have to speak  
All you'd hear is my heart-beat

We cannot choose the ones we love  
When our hearts they speak so loudly  
We can only listen  
We can only listen

**WITHIN  
WITHOUT  
YOU**

There is a place  
Not far from here  
A time and space hard to define  
But you know it's near

Because you've seen it  
Once or twice  
Maybe more  
This paradise  
No frills no thrills  
All is still  
Within without you

There is a train  
That's free to board  
It runs all hours of the day  
Of its own accord

So stop thinking  
You will understand  
Stop searching  
You will find  
That you are there  
It is here and everywhere  
Within without you

Ruth Moody © 2010

I never said goodbye  
Maybe I never even said hello  
Why did you have to go

Were you feeling sad  
I wish I'd called to say it's not so bad  
Though I know  
that's all very well to say

I would have anyway  
to try and make you stay  
at least another day

I never said farewell  
I didn't know that it was  
on your mind  
I should've seen the signs

**NEVER SAID  
GOODBYE**

I never realized  
You'd come all the way down  
to the wires  
There are so many things  
I could have said

Before the summer set  
but chances came and went  
I won't forget

And now it's clear as day  
I don't know what it was  
Standing in the way  
I don't know what it was  
You could have asked me  
You could have asked me

I never said goodbye  
I thought I saw you on the avenue  
Now I realize it wasn't you  
I just got the news

Ruth Moody © 2010

## WINTER WALTZ

Darlin' oh darlin'  
won't you come back my way  
It's been ever so lonely  
since you went away  
My heart is a breakin'  
I miss your sweet face  
My arms are an achin'  
for your sweet embrace

Winter lies thick  
on our rooftops and streets  
A wasteland of white  
has buried us deep  
And I'm cold all the time  
from my head to my feet  
But my heart is the coldest  
now that you've left me to weep

Lonely this world feels so lonely  
Now that you've up and left me  
with the snow comin' down  
Well I'm hopin' and i'm prayin'  
for you to return  
Bring warmth to my heart  
and spring to this town

Empty this world feels so empty  
Now that you're nowhere near me  
nowhere to be found  
Well I'm hopin' I'm prayin'  
for you to return  
Melt the ice 'round my heart  
and the snow on the ground

Ruth Moody © 2010

Come and find me  
In the valley  
In the deep green  
Oh hear my call

By the river  
I'll wait beside her  
Come and deliver  
Your love so tall

On the soft breeze  
We'll find the fruit trees  
And we'll pick sweet cherries  
To our hearts' content

And then we'll take flight  
Up in these wild skies  
And we'll greet the moonrise  
When the day is spent

We'll build a nest  
With twigs and branches  
Leaves and pebbles  
Flowers and mud

## NEST

We'll make it pretty  
We'll build it steady  
We'll get it ready  
To hold our love

And in the winter  
Our wings will cover  
One another  
Against the cold

We'll lie together  
We'll stay forever  
Birds of a feather  
Till we grow old

Come and find me  
In the valley  
In the deep green  
I'll wait for you

Ruth Moody © 2010

## WE COULD PRETEND

We could pretend that it's nothing  
Hide from this sufferin'  
We could do just enough  
and maybe we will

We could face the other way  
Wait for another day  
Find new ways not to say it  
Do you think we will

We could make ourselves immune  
Play it safe and resume  
Singing ourselves the same old tune  
I wonder if we will

We could choose not to use our eyes  
Lose ourselves in our disguise  
Know but pretend otherwise  
And wonder still

What do we become  
If we hide and if we run  
Shadows on the sun  
Shadows on everyone  
Shadows on everyone

We could wait and see if it'll pass  
Never tell and never ask  
Keep on hoping it won't last  
When we know it will

We could hide in the night  
Never take flight  
Like a sparrow perching tight  
On the window sill

We could try and deny it  
Keep on trying to fight it  
Hold the match and never light it  
Never feel the thrill

We could bottle it inside  
Keep the lid on good and tight  
But at some point in the night  
It's gonna start to spill

What do we become  
If we hide and if we run  
Shadows on the sun  
Shadows on the sun  
Love's under the gun  
Love's under the gun  
Shadows on the sun  
Shadows on everyone  
Shadows on everyone

## TELL ME

Tell me what I don't want to hear  
Cause I don't want to live inside the fear  
Of knowing I won't always have you near  
So tell me what I don't want to hear

Tell me what I never thought would be  
Tell me your forever's not for me  
Tell me so that I can learn to dream a different dream  
Tell me what I never thought would be

Tell me that you're leaving  
That it's just around the bend  
Tell me there's a new love  
And tell me again

Tell it to me straight and tell me true  
Tell me that I'm not the girl you want in love with you  
Tell it to me straight and tell me true  
I'll believe it when I hear it straight from you  
I'll believe it when I hear it straight from you

Ruth Moody © 2010

Just rang to say  
I got your valentine  
Does it make me yours  
Or does it make you mine

It's hard to tell  
I struggle with your scrawl  
Some words were a little smudged  
And some not there at all

I must have been crazy  
Lost in your blood-shot eyes again  
But love she marches in  
And takes us like an army  
now and then

## VALENTINE

Sometimes no means go  
It doesn't matter if it's right  
There's a secret doorway  
Where day folds into night

I was gonna make us something  
There was whiskey on your breath  
Standing in my kitchen  
What a pretty mess

I must have been crazy  
Lost in your blood-shot eyes again  
But love she marches in  
And takes us like an army  
now and then

Ruth Moody © 2010

I've got a fire inside  
could light the sky  
or burn the frozen ground  
Hit or miss  
heartache or bliss,  
I'll stay in another round

Diamonds break  
and hearts they ache  
to be satisfied  
So we play our cards,  
play them hard  
and hope we make it  
to the other side

One look at your face and  
I've found my place  
In this mad world  
So won't you come  
a little closer now  
And let me be your girl

I had a brush with luck  
it wasn't close enough  
to burn this table down  
But it's learning to stay  
when love comes your way  
that's laying your best hand down

One look at your face and  
I've found the ace  
I've been dreaming of  
So won't you come  
a little closer now  
I wanna know your love

Ruth Moody © 2010

**CLOSER NOW**
